ATOM ADVANTAGES

- Available in standard and customizable options
- ATOM packs numerous play experiences into a neat space, allowing it to fit in all kinds of locations
- Features like the Diamond Climber, Ripple Decks, and Scoop Nest add challenge and motion as kids move through levels
- Hammock Hangout and flex-tread elements offer calming, inclusive spots for social and sensory play
- Games and drums encourage hands-on fun, creativity, and friendly competition

ACTION-PACKED FEATURES

ATOM packs a full play experience into a compact footprint. Its sleek, modular design maximizes vertical movement and crawl-through fun, offering dynamic climbing, sliding, and hideaway zones in one visually striking structure. Perfect for smaller spaces or areas needing a bold, space-saving solution, ATOM is a powerful blend of form, function, and fun.

- 1

Fun Ride Slide

The slide is always the most popular event. This design allows parents to see kids at all times and never miss those priceless smiles!
- 2

Hammock Hangout

The slightly swaying hammock is a great place to hang out and start friendships. It features flex treads that provide fun sensory experience.
- 3

Ripple Platform

These unique shaped decks create challenging climbing experiences and cozy hang-out spaces.
- 4

Sit-N-Spin

All kids love to spin, so let them have at it! Singularly or in cooperative play, this kid favorite is a winner.
- 5

Scoop Climber

Kids can reach the second level with a slithering twist as they climb these scooped-shape decks.
- 6

Diamond Pass

When kids transition from the first to the second level, they must pass this fun, swaying, diamond-shaped obstacle.
- 7

Musical Drums

Test your rock skills and make some noise with this Drums Music Panel featuring human-powered energy.
- 8

3-in-a-Row Game

How many can you get in a row using the 3 in a Row Panel Game? No loose pieces to go missing and no clearing up after playtime!
